

MISIÓN PERMANENTE DE MÉXICO

ONU-0985

The Permanent Mission of Mexico to the United Nations presents its compliments to the United Nations Children's Fund (UNICEF) and has the honour to refer to the Global Partnership to End Violence Against Children.

The Government of Mexico is pleased to inform UNICEF, and by extension the Global Partnership Secretariat, of its formal acceptance to become a Pathfinder Country in the Global Partnership.

In the coming days, Mexico will appoint a national focal point that will be communicated to the Secretariat for the purposes of coordination and implementation within Mexico. The Government of Mexico is convinced that its participation in the Global Partnership will contribute to advancing the rights of children in Mexico, as well as the implementation of the 2030 Agenda for Sustainable Development, and in particular goal 16.2.

The Permanent Mission of Mexico to the United Nations avails itself of this opportunity to renew to the United Nations Children's Fund the assurances of its highest consideration.
